

The blockchain. Unlocked.

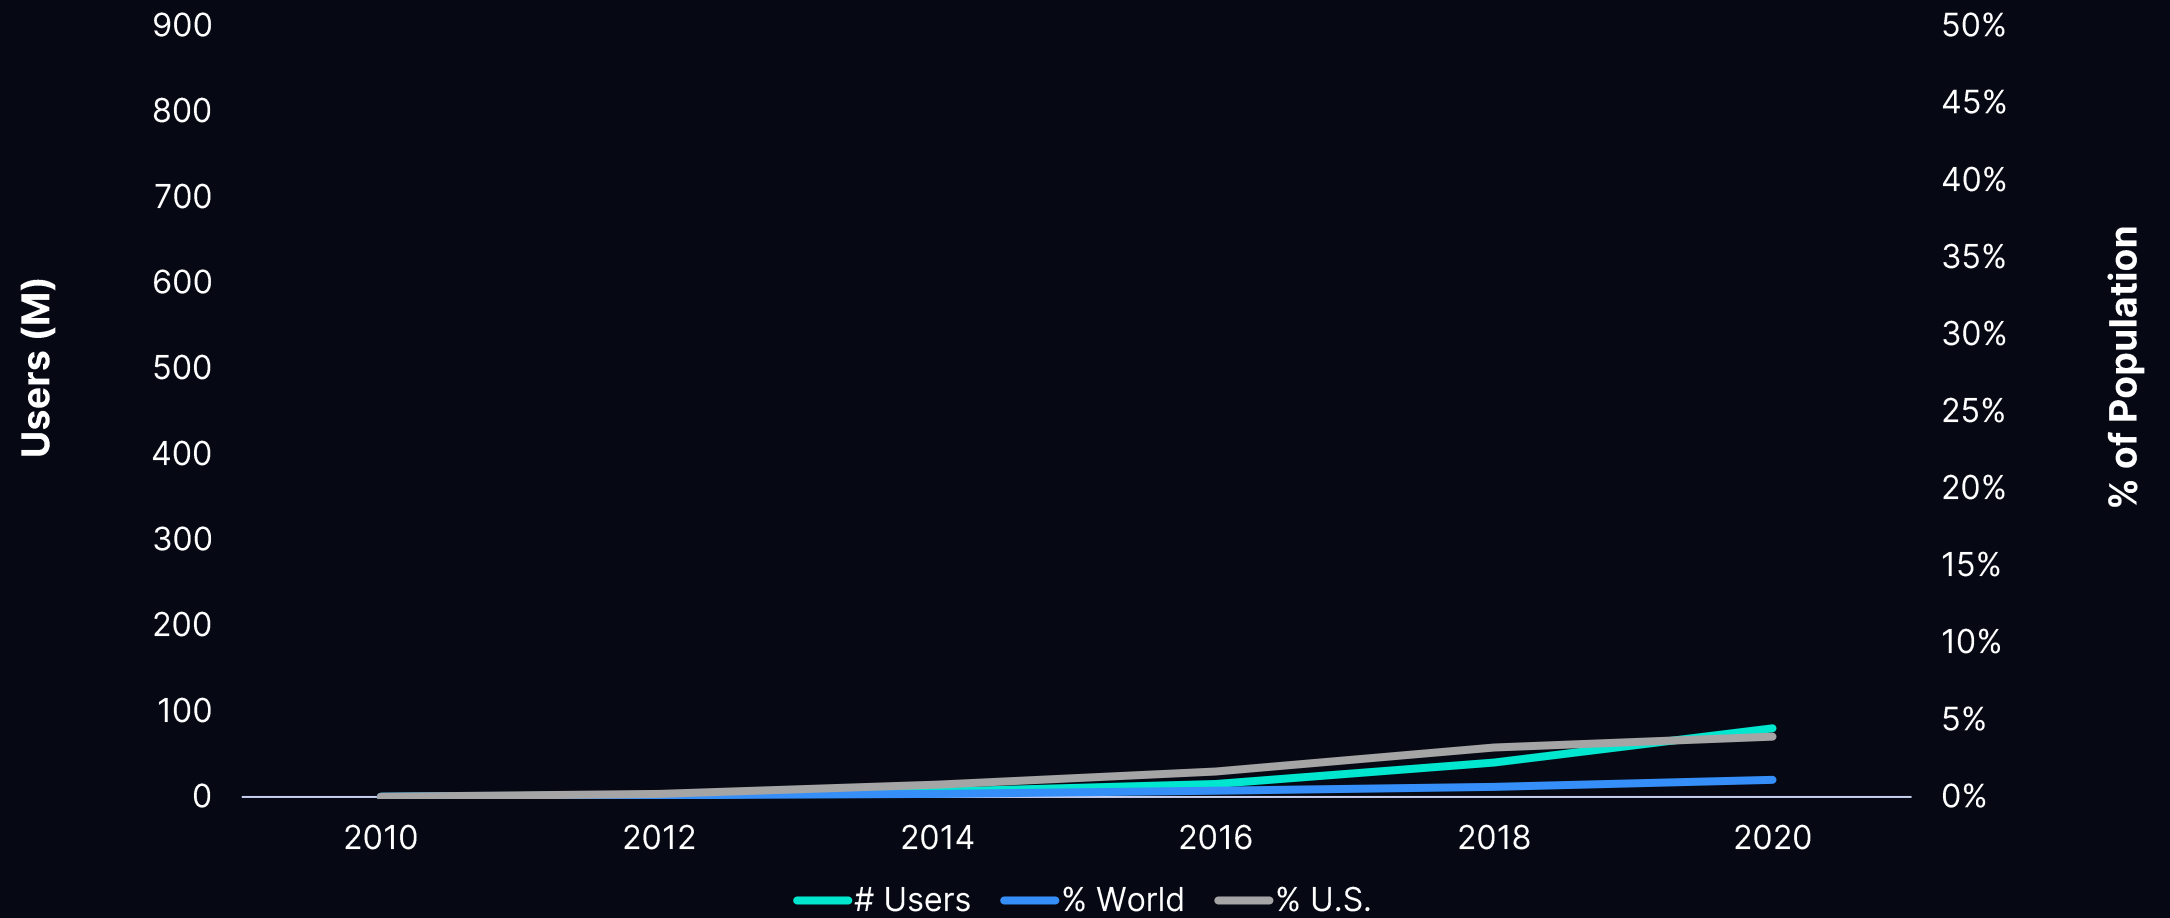

Web3 infrastructure Web2 developers deserve.

This is internet adoption in its first 10 years

This is blockchain

The future of blockchain is **NOT** only ease of access to **crypto** (ramps), **it's an infrastructural shift**, it's NoRamp.

web2

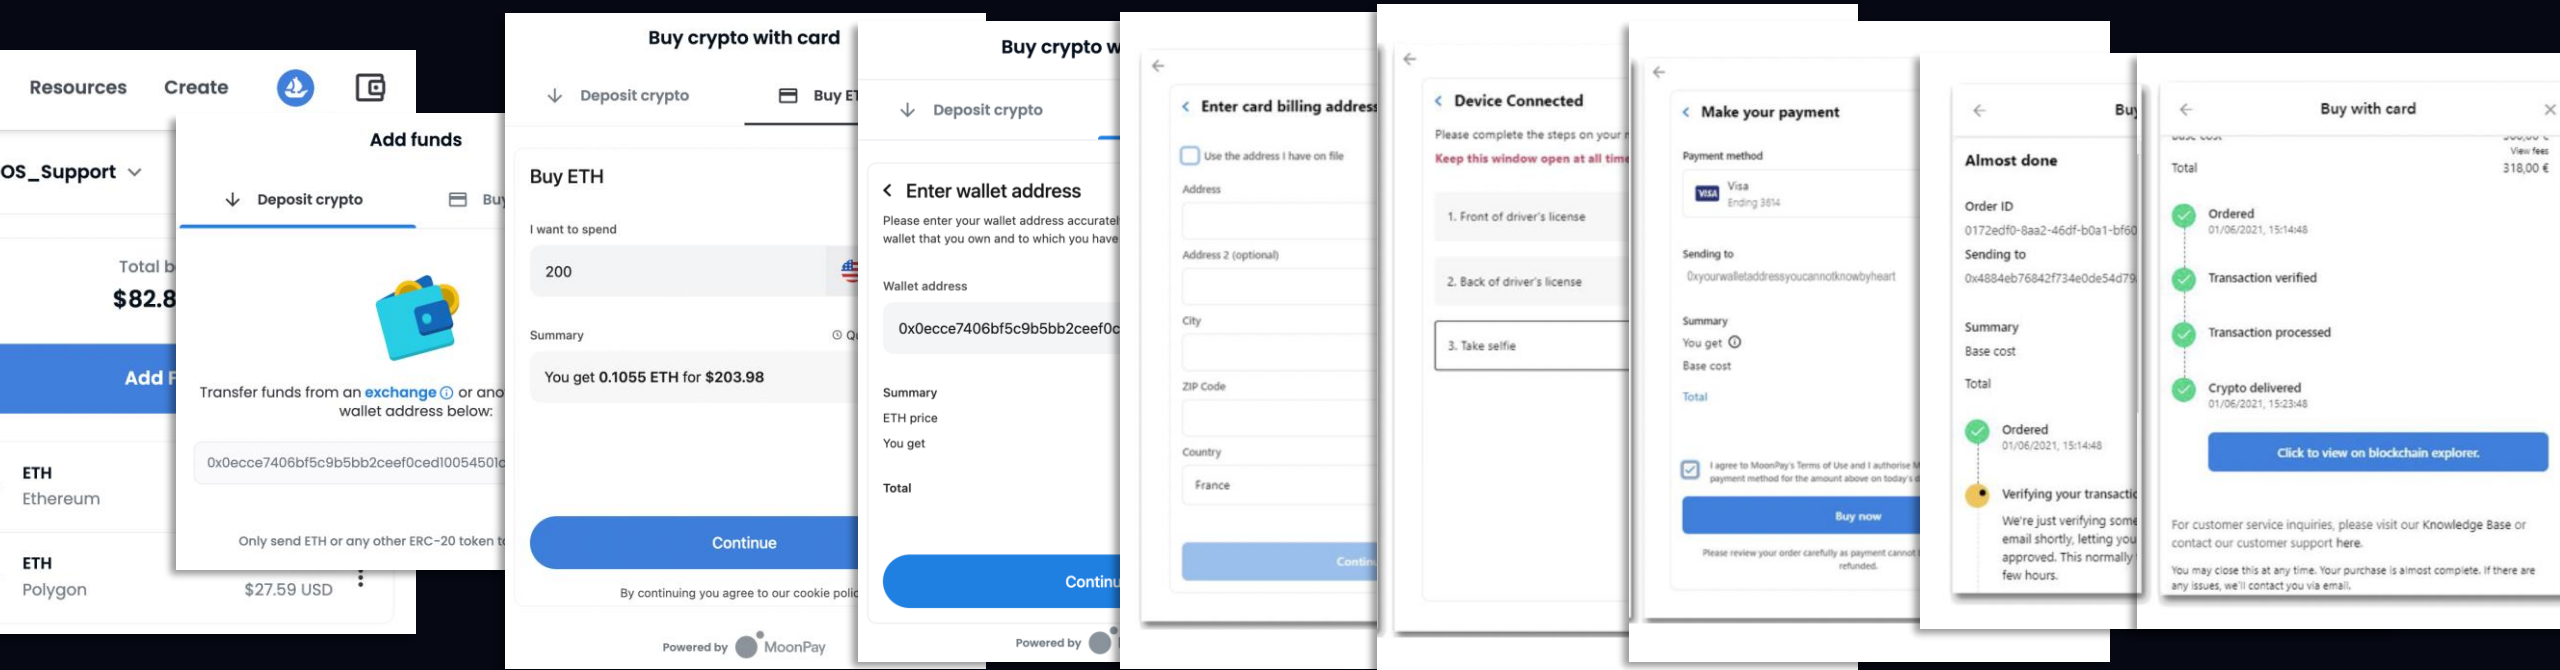

NoRamp

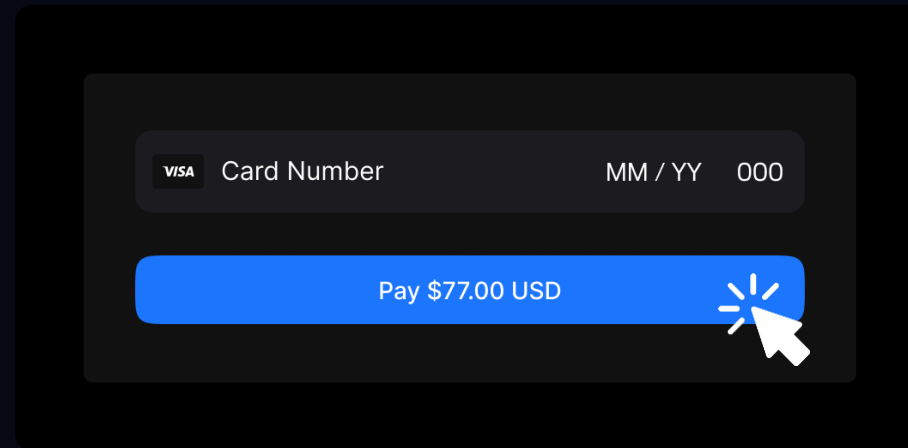

web3

Buying crypto with MoonPay takes **14 clicks**

MoonPay Terms: "It's common for some transactions to **take a few hours** (especially if it's your first purchase)."

Buying an NFT with NoRamp takes **1**,
and is **>200x faster**

<30 seconds
buyer journey to execute

[Buyer demo video](#)

How we do it

NoRamp uses a **proprietary process (patents-pending)** to activate smart contract triggers initiated by off-chain peer-to-peer fiat payment confirmation, enabling:

No Buyer KYC

Fiat transactions occur directly between buyer & seller.

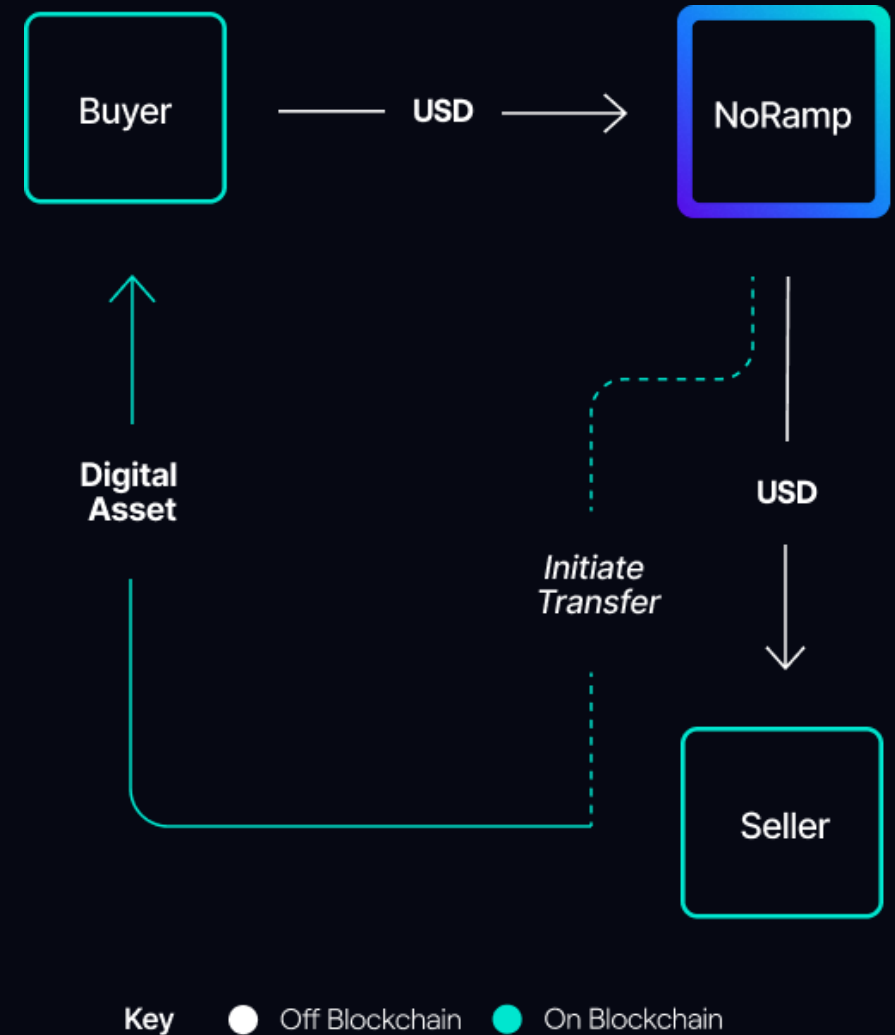

Fastest Execution

Off-chain payment confirmation triggers NFT transfer immediately.

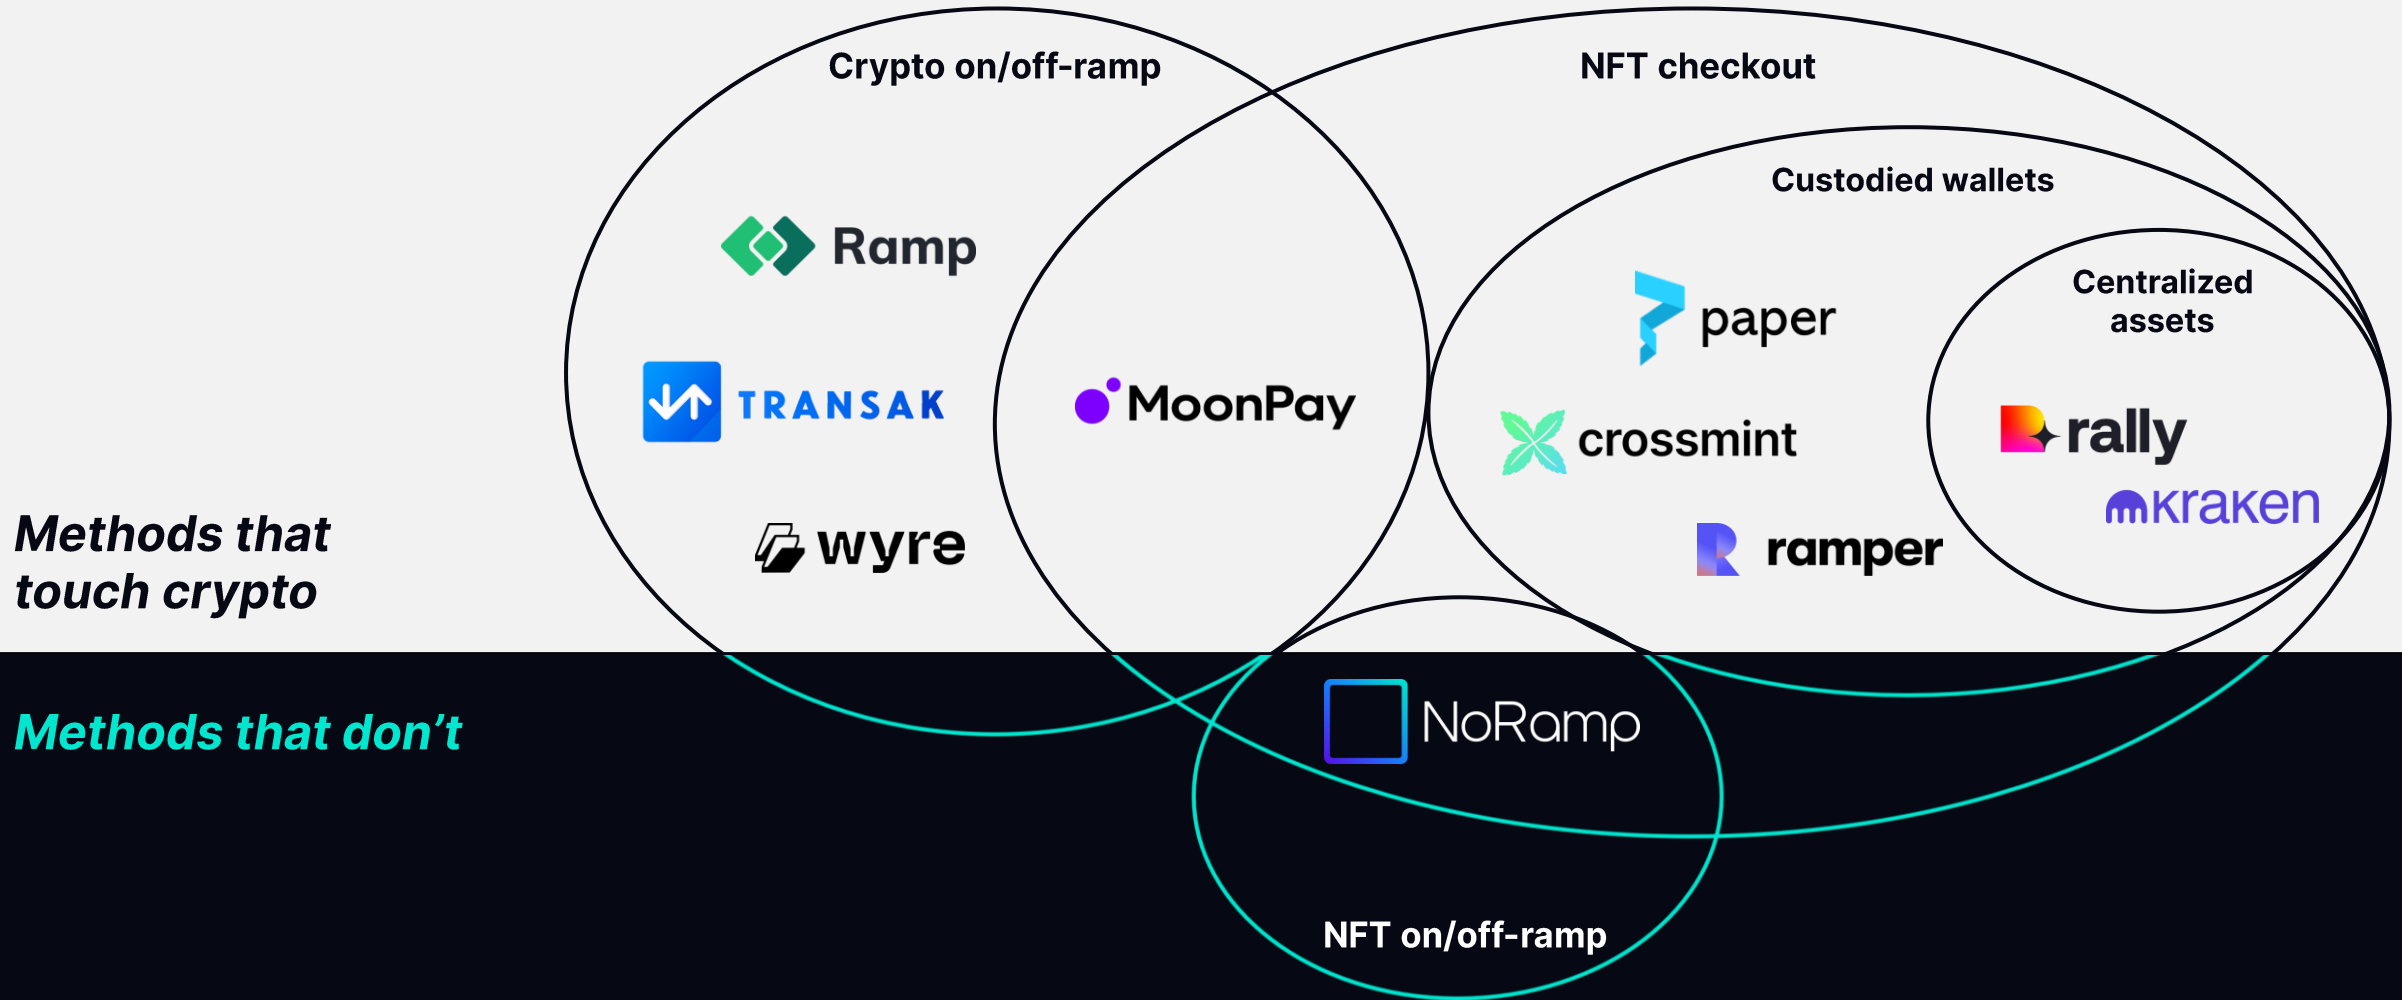

Lowest Possible Fees

P2P payment circumvents multi-step on-chain swapping process.

We've carved out a **standalone segment in the ramp space**

NoRamp creates the first *'fiat-native'* digital asset layer

Now not only buyers, but **new creators** no longer need to adopt & accept cryptocurrency to mint & sell NFTs, **unlocking a whole new class of use cases & users.**

But it's not just NFTs...

NoRamp moves data, not crypto.

Today we have **1 trigger option:**

Tomorrow we'll have >1000

*NoRamp is **not** just another payments solution...*

We're building “Zapier for blockchain”

Our experienced core team of passionate builders

Kody Amburgey, CEO

- 2x venture-backed founder/CEO who has raised \$15M+ in VC and generated \$4M+ ARR
- Prior VC investor at SeedInvest and Investment Banker at BofA Merrill Lynch

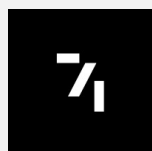

Pepi Martinez, Head of Engineering

- Self-taught coder since age 8 and recent NYU graduate with degrees in Comp Sci & Economics
- Former Lead Engineer at Blockchains.com, EY tech consultant and founder of Nostradamus, an algorithmic trading bot that produced 193% AAR

Daniel Kiani, CGO

- Social growth hacker who bootstrapped his first project, AI SaaS, from 0 to \$6M ARR in 14 months (\$0 spent on ads) at 19 y/o
- Co-founder of Symba Marketing with 5.6bn+ views and 70M+ followers gained for clients

Lucy Kevorkian, COO & GC

- Experienced business counsel and operations lead with 15+ years representing private equity, startups and public companies
- Former General Counsel at OpenBet and Telnyx

Add **superpowers** to smart contracts.
