**Satish Tadikonda**  
**(Co-Founder, Executive Chairman)**

HBS Faculty  
Managing Partner, Avigo Solutions  
Board Member, Blue Cloud Ventures  
Exited Serial Entrepreneur

**TRIAL ATLAS**

# Tremendous Market Opportunity

Our Customers: Trial Sponsors and Administrators (Pharma, Biotech, CROs, Health Systems)

# Decentralization is the New Normal in Clinical Trials

**70% of eligible patients live >2 hours away from trial sites**

**COVID Reduced access to trial sites by 80% during peak**

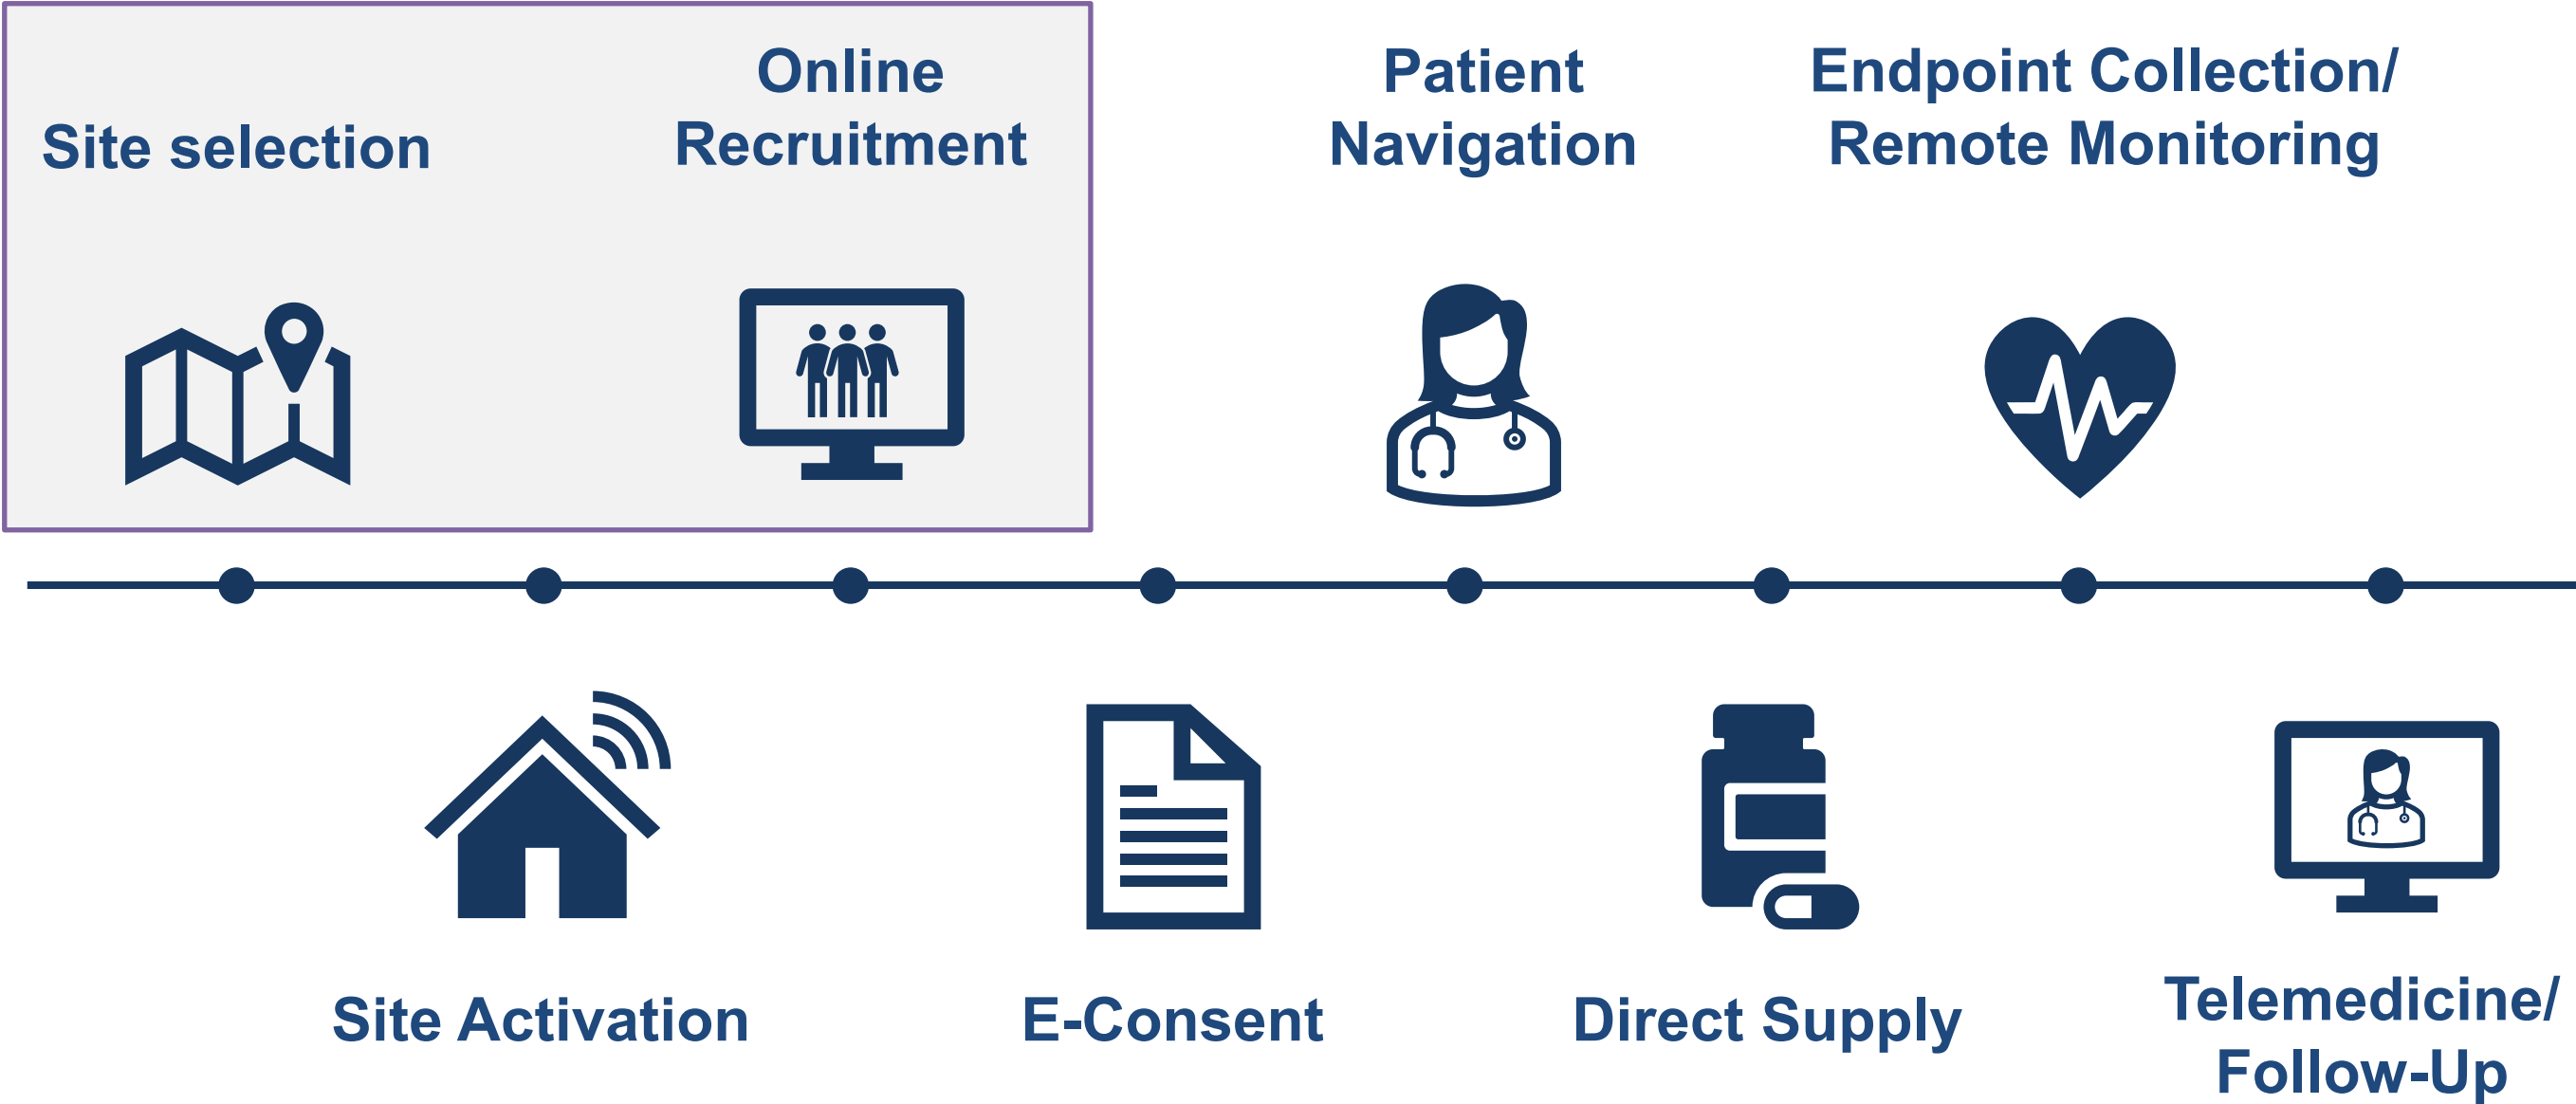

**98% of patients and 70% of HCPs are satisfied with remote interactions**

**80% of new trials have some degree of decentralization (quadrupled from 20% pre-COVID)**

# Trial Atlas: End-to-end Decentralized Trial (DCT) Solution

*Focus of MVP*

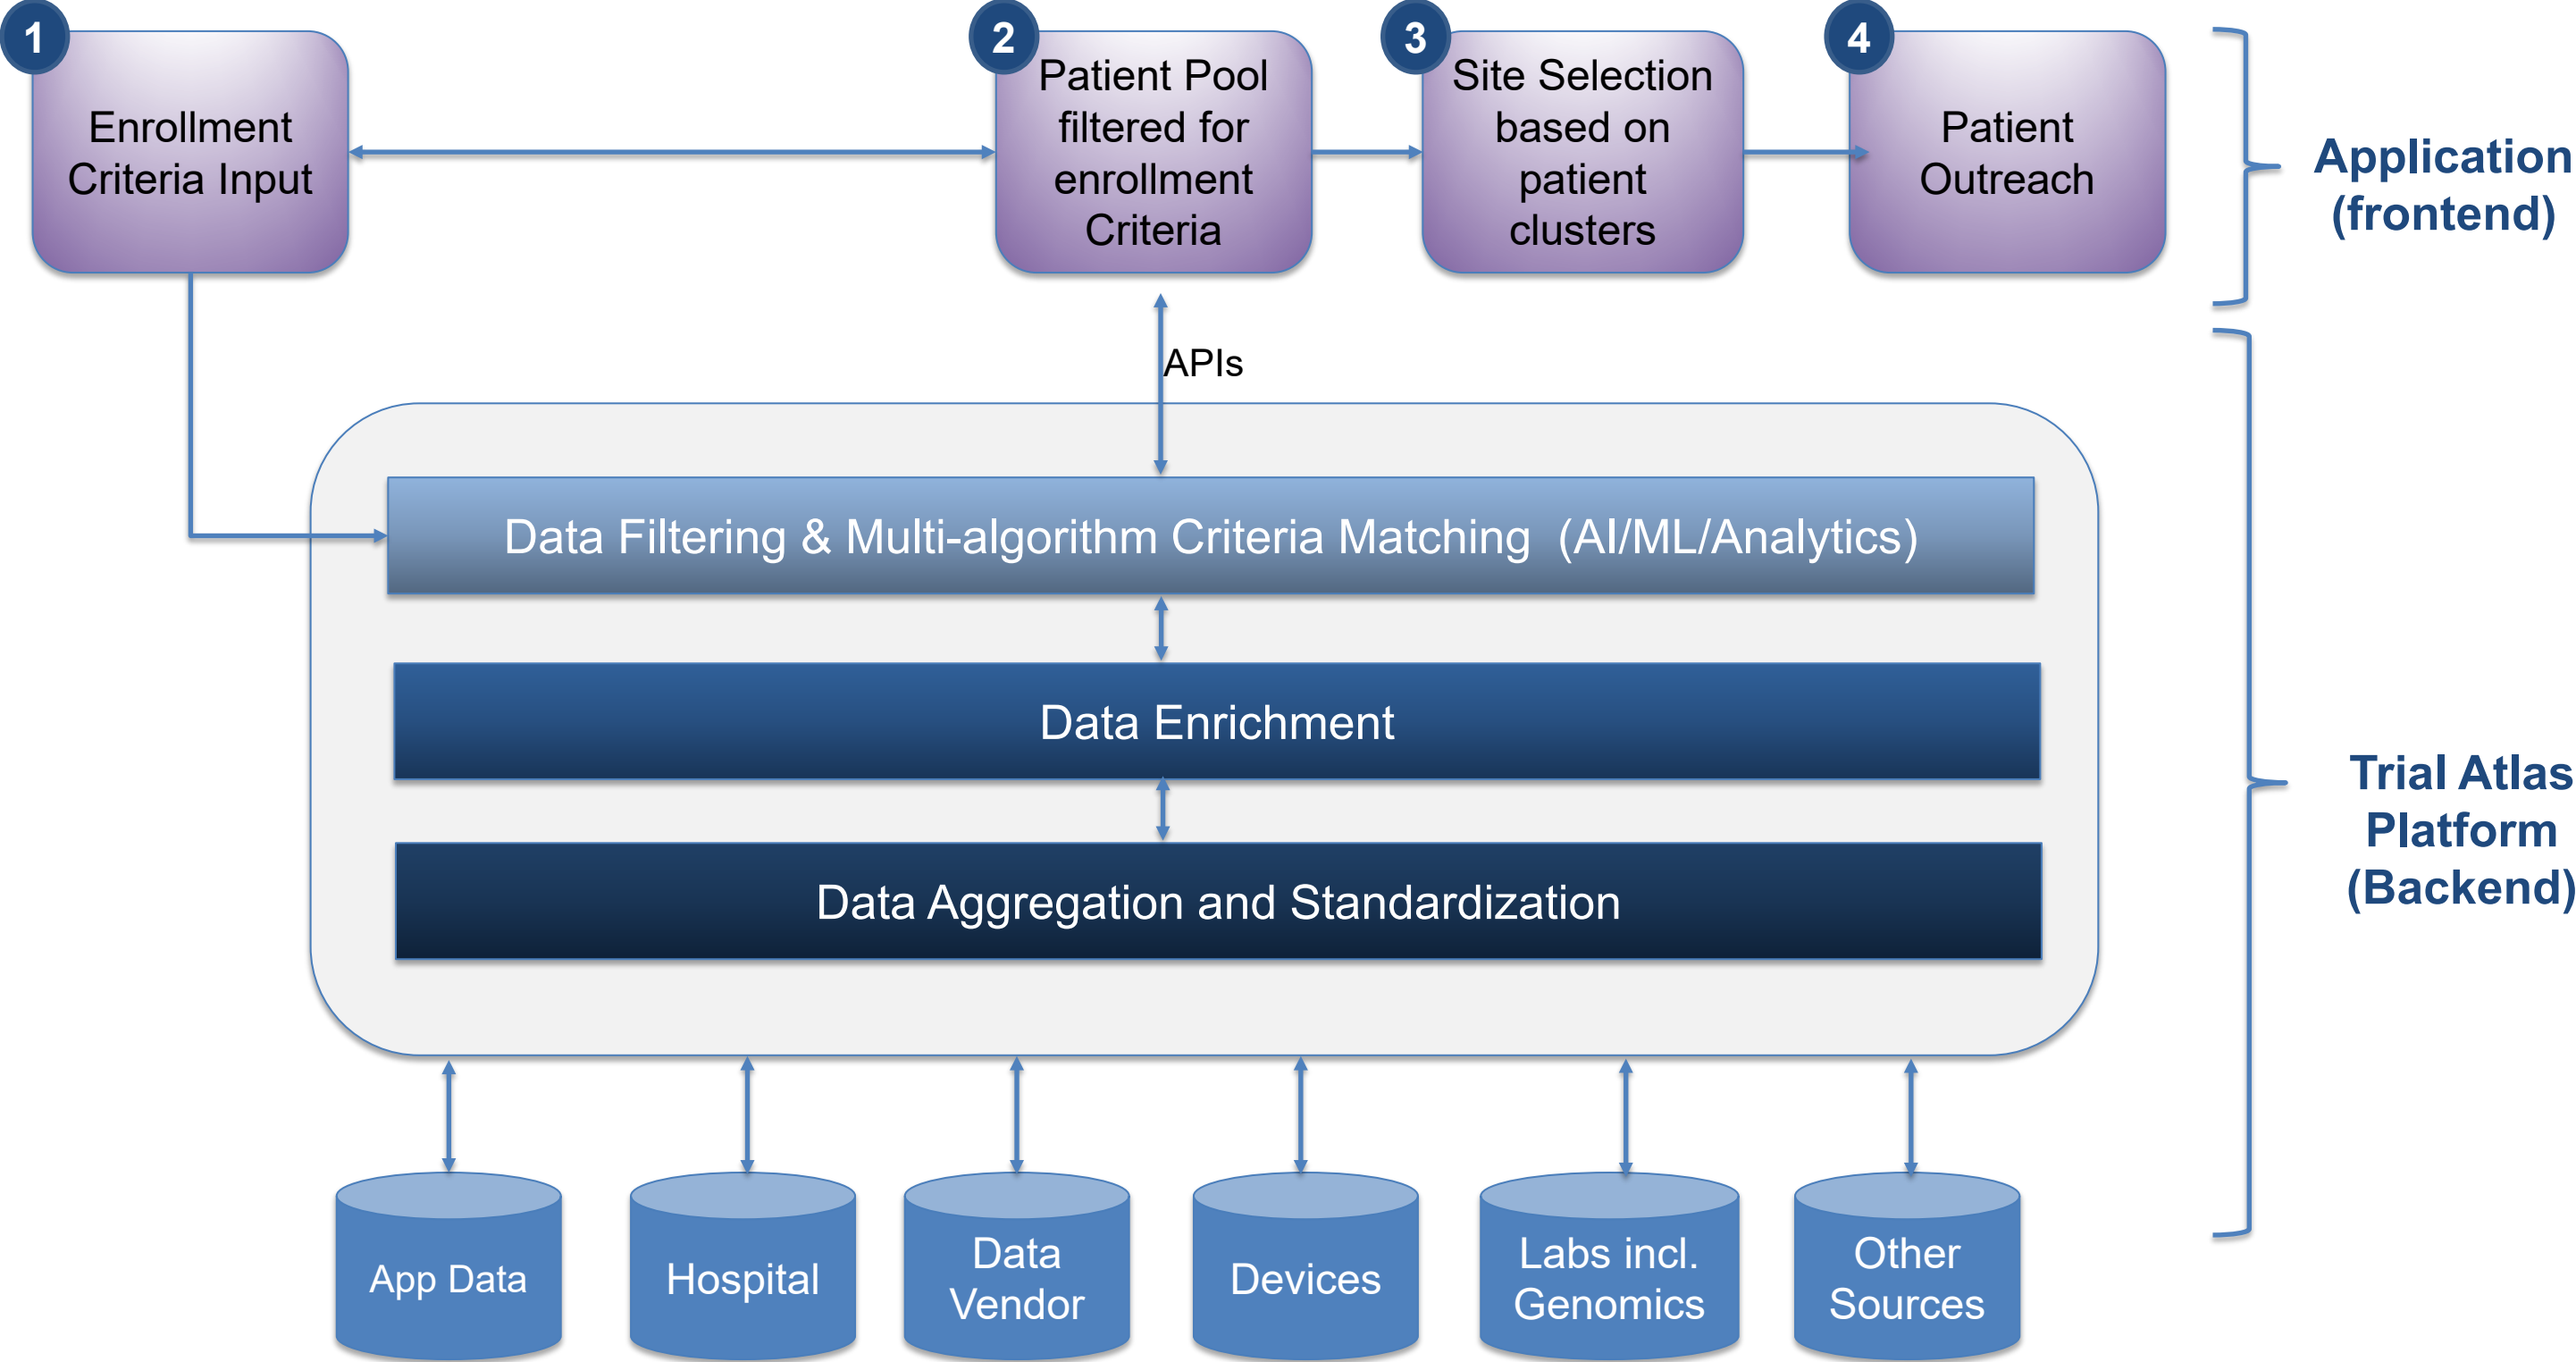

**TRIAL ATLAS**

# Patient Identification is the costliest step in recruitment

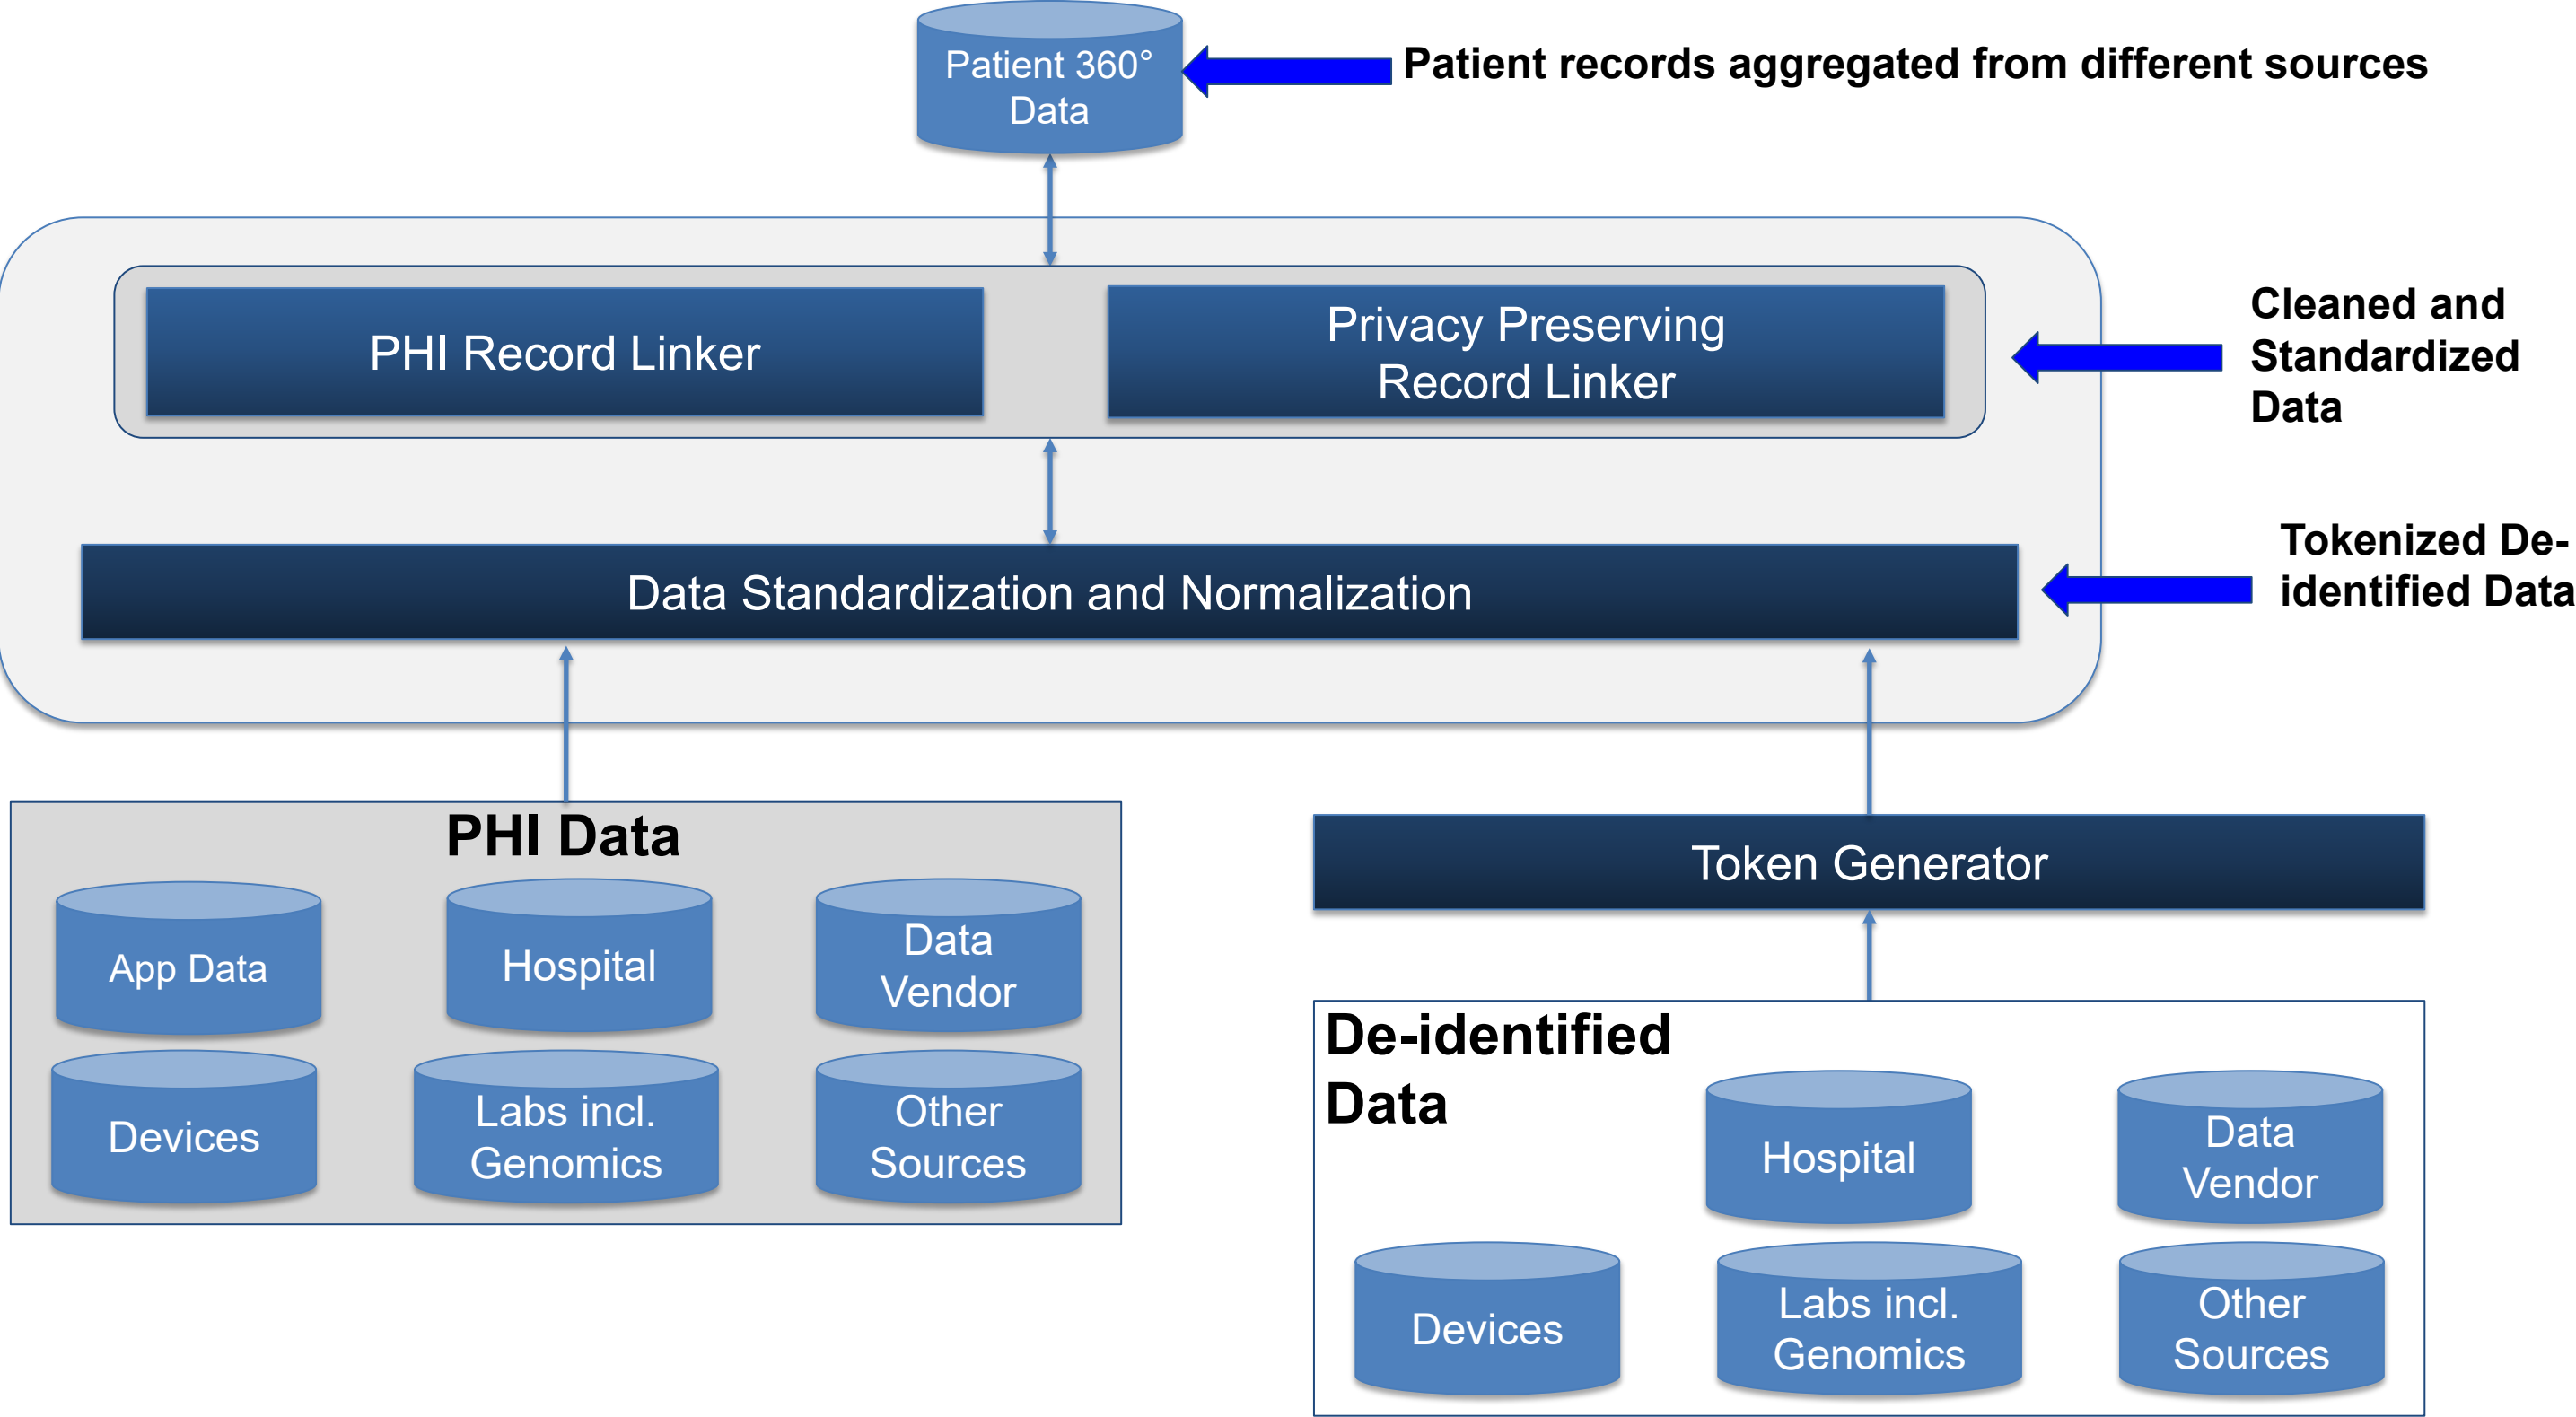

Trial sponsors must reach out to thousands of patients via advertising and referral networks to land ~100 interested patients, of which <50 will enroll

# Our Patient Recruitment MVP: Conceptual Overview

# Pursuing an Asset Light strategy to win fast

# Differentiation vs. Existing DCT SaaS Providers

Trial Atlas		Existing SaaS Providers (e.g. Medable)
For Trial Sponsors/Admins		
End-to-End (from site selection through FDA approval)	✓	✓
Pure SaaS (configurable, easy adoption)	✓	✓
Full ownership of Patient Selection, Recruitment, Outreach	✓	✗
Designed and built for protocols of difficult-to-recruit specialties (rare disease, pediatrics)	✓	✗
For Patients		
Data Access via Portal	✓	✗
New Trial Discovery via Portal	✓	✗
